Galaxy Watch Ultra

Galaxy AI ✨ is here

Image simulated. Galaxy Watch Ultra is water resistance for 10 minutes in water with a depth of 100 meter according to the ISO22810 standard. The test was conducted in 5% salty water and 4ppm chlorine water. Galaxy Watch Ultra is water resistant with an IPX8 rating based on the lab test conditions for submersion in up to 1.5 meter fresh water for up to 30 minutes. It is not suitable for high-pressure water activities and diving. It may be used for shallow-water activities like swimming in a pool or ocean. Water resistance is not a permanent condition and can diminish over time. Refer to the user manual for further information, including care/use instructions. Availability of colors, sizes, models, and watch bands may vary by country or carrier.
